# Creative place for good digital ideas.

---

## ABOUT

We are a design studio and an interactive new media agency based in Spain. Our aim is to create digital products and experiences that connect with people.

Nectar is the dream of four designers: Luis Miguel Garcia Almansa Santos, Raul Ortiz and Javier Lacasta, an atelier where we work since 2004. We count with a great multidisciplinary team, able to provide solutions that fits the needs of any client or company.

The design is our essential tool. We trust in creativity and technology. We believe in hard work and good ideas as the main ingredients of the recipe of great digital products.

Our expertise is interactive design and digital communication. Nectar provides Digital Solutions: web design and development, apps, UX / UI, E-commerce, Software, Content creation, Online marketing, Consulting and training.

We work with large and small customers in the development and implementation of "custom" digital solutions that span the entire project, from the briefing to the communication.

## Strategy

Digital strategy and Audits  
Consultancy  
Brand strategy, branding projects  
Content strategy  
UX strategy  
E-commerce strategy  
Social media strategy  
Audit and analytics  
Digital Communication

Web and mobile apps  
E-commerce  
E-learning platforms  
ERP integration  
Social media

## Performance

SEO / SEM  
web analytics  
CRM integration  
Community management  
Social Networks & SMO  
Mailing Management  
Lead Generation

## SERVICES

## PHILOSOPHY

### Communicate through design

As designers we have the responsibility of communicate ideas in an attractive way, creating customized products. The design is our main tool, our strategy and the value which makes the difference between us and other agencies.

### Details make us different

We like commitment with users, custom design, digital handcrafted, pixel perfection. We look for the right solution from the first pixel and not stop until we find, creating always unique solutions to unique problems.

### Using reliable processes

The sum of strategy and technology enables us to improve and solve problems effectively. We use methodologies and processes that allow us delve into each phase of the project in order to go further and exceed the goals.

### Designing for users

We are designers but also users. We have a special sensitivity to the needs of people. This sensitivity allows us to design products and interactive experiences to be recognized, appreciated and shared.

### Simplifying to improve

We know the impact of simple and clear messages. We work tirelessly to find what is truly important on each idea to communicate in the most simple and effective way.

### Learning from experience

Our 12 years of experience and knowledge of the digital environment guarantee part of the success of the projects. Our mistakes and successes during all these years have taught us that technology and fashion can be transformed, but the success of a design project is always based on the effort and hard work.

# 12 years designing digital experiences and supporting local culture

---

CAREER

Since 2004, our projects and awards have positioned us in the global digital industry. We believe in democratizing knowledge and thus create Pixel Attack in 2007, the first meeting of digital and new media in Valencia at the moment Pixel Attack is a meeting space between professionals of the digital environment.

We have been fortunate to work with clients which have understood the value of creating a recognizable digital identity. A good example is Lois Jeans, with whom we collaborate since 2006, garnering with them dozens of awards and obtaining a huge brand impact.

We evolve with technology, from the "flashturbation" years to current trends, material design 3D, VR, GL, web, interactive immersive experiences.

We are suppliers, partners, design consultants and digital product developers for startups, public institutions and multinational companies.

Since 2010 we are combining our work in the study with our teaching work in universities and companies. Currently we teach in various bachelors, MBAS, and post degrees.

# "Nectar is able of anythingt"

## MEDIA MENTIONS

### El país

#### Digital creation in Valencia.

"Nectar Studio has done graphic projects, web, multimedia and advertising for clients like Cimarron or Lois". Pixel Attack, the digital creation meeting that concluded yesterday in the Parpalló Museum in Valencia, has served as a showcase of what Valencians creators are able to do.

### Awwwards.com

#### The best Spanish web agencies. Israel Pastrana.

"Nectar is a digital agency focused in new media, a young team that seems which it is never still, ever present at events and Spanish design awards "

### Graffica.info

#### Restlessness to the core.

"Nectar does it all: corporate identity, online marketing, SEO / SEM, online shopping, mobile apps, 3D and motion graphics, but definitely his strong point is the design and Web development".

**PROJECTS**

# 10 years of digital branding. Lois Jeans 2006-2016

---

[VIEW PROJECT](#)

**Lois Jeans is a fashion company that has positioned as one of the leading denim brands globally due in part to its digital branding strategy.**

**Since 2006 we have been creating the digital identity of Lois jeans. In 2016 after millions of visitors, 20 interactive campaigns and dozens of awards, we are still creating trends together.**

# Design to improve productivity. **ManpowerGroup**

---

[VIEW PROJECT](#)

**ManpowerGroup** is a multinational company which offers many services and consultancy in the human resources field 4000 companies just in Spain.

Manpower's sales department needed a tool that would serve to show its customers the different categories of their work efficiently, and trusted us for the design and development of a Web App.

# The best destination for travel agencies. **Grupo Nego**

---

[VIEW PROJECT](#)

**Grupo Nego** is one of the leading suppliers to travel agencies in Spain. More than 500 independent agencies rely on the services offered by the platform **Nego Services**.

**Grupo Nego** has trusted us for the creation of their digital identity and the development of its main tool the **Nego** platform. The intranet that unifies all the services that an independent travel agency needs.

# Improve security together. **Intrasenze**

---

[VIEW PROJECT](#)

**Intrasenze is a Swedish company whose primary objective is to develop solutions in the field of security to generate a profit in society.**

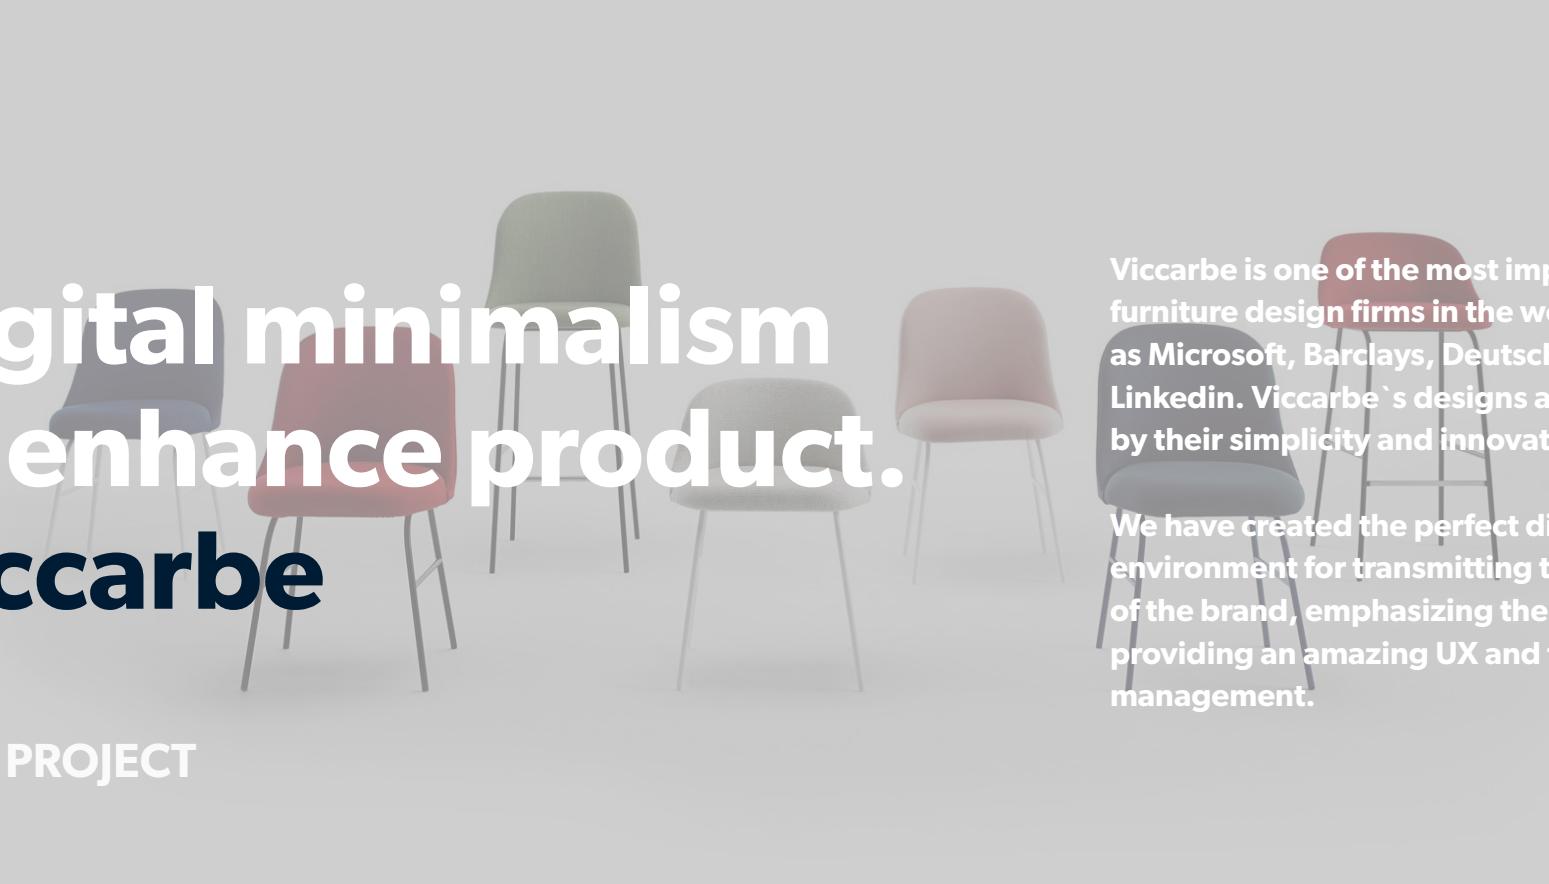

We have provided the digital environment to convey the idea of intrasenze designing the corporate website and developing the e-commerce. Our challenge was to communicate in a clear way the various solutions offered by Intrasenze and reflect the concept of social network deicated to improve the safety of people.

# Digital minimalism to enhance product. **Viccarbe**

---

[VIEW PROJECT](#)

**Viccarbe** is one of the most important contract furniture design firms in the world, with clients as Microsoft, Barclays, Deutsche Bank or LinkedIn. Viccarbe's designs are characterized by their simplicity and innovative elegance.

We have created the perfect digital environment for transmitting the values of the brand, emphasizing the product providing an amazing UX and fully satisfactory management.

# Adding value to global events. **Awwwards**

---

[VIEW PROJECT](#)

**AWWWARDS** conference have become a global reference event in the world of design and development of digital products. This events needed an app to add value.

We created the perfect app for an Event. This includes an intuitive directory for search Talks, speakers and attendees, locations and schedules. This app offers innovative features such a fun system for qualify conferences and workshops, perfect to improve the AWWARDS Conference experience.

# Designed to thrill target audiences. **Reale Seguros**

---

[VIEW PROJECT](#)

Reale is one of the most traditional insurance companies worldwide. their product "Instinto Familar" needed a modern approach, away from the typical insurance campaigns.

For this projects we worked coordinated with Reale marketing team to create a landing page designed to impact their specific target. Simple design with fluid micro-interactions and emotive images. Regarding conversion, in the entire landing we can find some CTA'S that contrast perfectly with the rest of the design.
